

Ref: P018	TLS Carbon Footprint Policy
-----------	-----------------------------

Policy Commitment

In line with statements made in TLS Ltd.'s Environmental Policy (P003), the company is committed to finding ways to reduce its carbon footprint.

This is based on:

Environmental Policy Principles:

- Reducing our impact on and adapting to climate change
- Minimise the use of natural resources, where practicable
- Greater understanding and increased use of sustainable resources and products

Environmental Strategic Aim 1 – Develop & maintain a proactive culture

Commitment to Action

The company is committed to taking actions to achieve the above policy commitment. In 2021 the actions are as follows:

- Wherever possible, reduce journey distances for operatives to client's sites to carry out contracted work by using the most local, qualified labour to perform the work. Fuel usage as a function of company turnover will be used as a measure.
- Investigate the use of electric or hybrid vehicles as part of TLS Ltd.'s vehicle fleet. Electric vehicles in use as a percentage of total number of fleet vehicles will be used as a measure.

Carbon Emissions Reduction Plan

Traffic Labour Supplies Ltd. has created a Carbon Emissions Reduction Plan – Please refer to PL009 – Carbon Emissions Reduction Plan – Rev 00. This sets out the measured baseline carbon emissions footprint, target reduction and measures being taken

Paul Chamley

A handwritten signature in black ink, appearing to read 'P. Chamley'.
