BELOW IS AN EXTRACT FROM TLS LIMITED ENVIRONMENTAL POLICY STATEMENT

2.3.2 Waste

We are committed to responsible waste management and aim to reduce, reuse and recycle waste generated through our premises, processes, plant and equipment by:

- Reviewing and improving our working practices
- Building effective waste management and awareness into the decision making process
- Delivering effective waste management information to all areas of the business and regularly reporting performance and benchmarks.
- Raising employee awareness through training and communication.

TO ALL TLS STAFF, CONTRACTORS AND VISITORS PLEASE READ.

As of the 8th September 2014 TLS Limited adopted the policy of utilising new recycling facilities in the form of recycle bins clearly marked out.

Both of this bins are situated in the kitchen area, and the main waste disposal (dirty and recycle) bins are located outside at the rear of the building.

Your cooperation in implementing the above is required and very much appreciated as outlined in our awareness training sessions held in January and February 2017 for all staff.

G.Cobb

Compliance Manager
